To Human Resource Department
GrowByData Pvt. Ltd.
Bakhundole, Lalitpur, Nepal

Dear Hiring Manager,

I was excited to learn about vacancy for Data Engineer position after visiting your company's website and would greatly appreciate your considering my placement in this role.

I had worked in GrowByData as a Cloud Analyst and had been involved in Data Migration, Quality Assurance and many more. After that, I worked as a Database Administrator Trainee. I was actively involved in many projects related to Oracle database from scratch, including RMAN and data pump Backups, Auditing user activities, Performance Tuning and optimization of SQL queries, Table Redefinition, Oracle Encryption, Shell and Bash programs for ETL process, Index Statistics and Rebuilding, Undo Tablespace Management. Converting R-script code into Bash Script for automated ETL, etc...

Currently, I have been working at Cotiviti Nepal since June 2018. The company analyses US Healthcare Data and I have been involved in many projects. Some of the projects I worked was converting Postgres script into Oracle, performing ETL and data scrubbing in Oracle and transferring it to Postgres database, UI Development in Java MVC Framework, Developing PL/SQL Procedures for data scrubbing and data analysis, writing shell scripts to automate procedure compilations and many more. I was also involved in many code and idea development challenge competition like Hackathon.

Besides working in Cotiviti, I am also working as a Python instructor in Mentor Institute of Technology, Nepal since March 2019. I am teaching core python programming to higher secondary and undergraduate students. I recently got a privilege to act as a teaching assistant (Python Programming) in National College Engineering, Talchikhel, Lalitpur.

My experience has greatly contributed to the development of my technical, interpersonal, and collaboration skills. I am always ready to share my knowledge with others, and I love learning new things from my peers. I excel at communicating both clearly and professionally with co-workers, management, and staffs.

I look forward to speaking with you further to provide details of my background and those qualities which I believe will be an asset to the department's goals. Please take a moment to review my resume. Thank you for your time and consideration.

Sincerely,

Saman Munikar
